

11. When are safety belts and shoulder harnesses required to be worn?

---

---

---

12. No person may operate an aircraft so close to another aircraft as to create a

---

13. Who has the right-of-way when two aircraft are on final approach to land at the same time at an uncontrolled airport?

---

---

---

14. What action do you need to take if you are overtaking another aircraft and which aircraft has the right-of-way?

---

---

---

---

15. What should you do if you are flying a head-on collision course with another aircraft? If another single-engine aircraft is converging from the right, who has the right-of-way?

---

---

---

16. Except when necessary for takeoffs and landings, what are the altitudes restrictions when flying over congested, non-congested areas, and wildlife areas?

---

---

17. What altitudes should you use when operating under VFR in level cruising flight at more than 3,000' AGL?

---

---

---

18. What is the minimum fuel reserve for day VFR flight? How many gallons reserve would you have remaining for your aircraft? What are your personal fuel reserve minimums?

---

19. What aircraft documents must be on board while flying solo?

---

---

---

---
